

Company Profile

ABOUT US

INPAKT GROUP South Africa is committed in providing comprehensive solutions and services for the packaging industry. We are an International supplier of specialized packaging machines and have strong business relationships with multiple companies and reputable engineers not to mention a strong in-house technical team. We are thus able to supply and support a large variety of machines.

Our solutions and designs are suited to your needs and improved by our experience and trend-setter new generation approach. Together with the technical solution, we provide expertise and management of the process from start to finish.

Inpakt Packaging can help you get the most out of your packaging systems by providing service and support for all types of packaging equipment, machinery, and parts.

SERVICES

Packaging Equipment Repair

- Trained technicians
- Equipment installation and start-up
- Operator and maintenance training
- Machine evaluation and performance optimization
- Repairs, rebuilds, and retrofits
- Parts programs

PACKAGING EQUIPMENT PARTS REPAIR

At Inpakt, we partner with trusted, reliable packaging equipment manufacturers so that we can offer our customers extended service. However, we do suggest keeping spare packaging equipment parts on hand just in case.

If you need one of your packaging machine parts repaired, Inpakt's factory-trained technicians are able to offer you on-site service or step-by-step instructions so that your staff can safely complete the parts replacement installation.

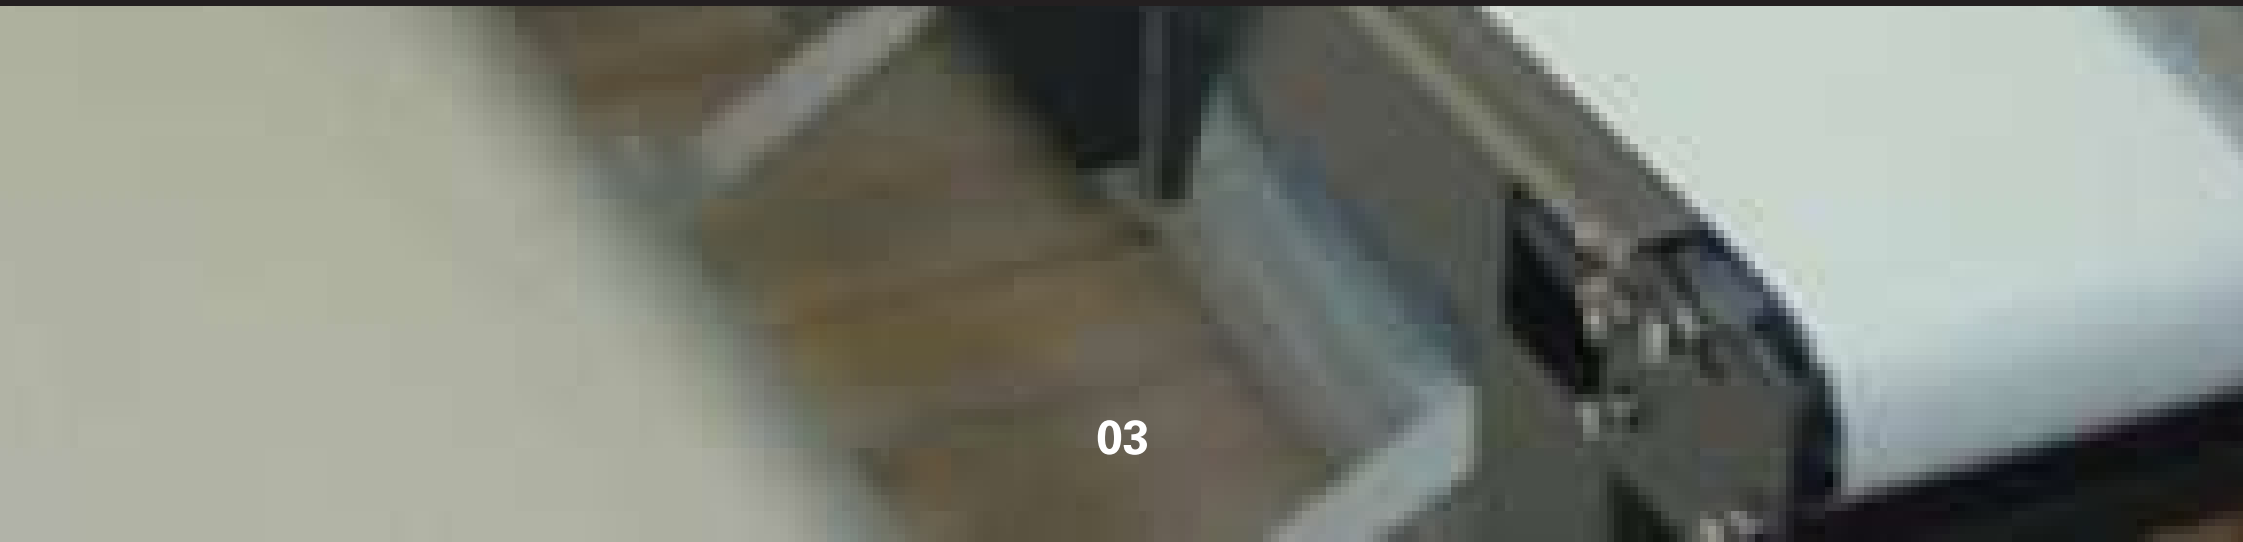

OUR PACKAGING EQUIPMENT PROFESSIONALS

Our packaging equipment service technicians combine years of experience with packaging equipment knowledge to deliver expert service and consultation on all of our lines of packaging equipment.

We can help you with anything from set-up and installation to performance optimization. We also offer a complete packaging equipment parts program with customized maintenance plans that will keep your equipment running at top performance levels.

You can count on us at Inpakt Packaging to keep your equipment running at peak performance.
